PROFILE SUMMARY

A motivated and detail-oriented Computer Science student with a strong passion for innovation, problem-solving, and teamwork. Has a proactive attitude and is committed to learning continuously and adapting to new technologies. Shows solid technical skills by successfully completing impactful projects. Focused on delivering scalable and valuable software solutions while performing well in fast-paced, high-energy settings.

EDUCATION

Madras Institute of Technology, Anna University <i>B.E. – Computer Science Engineering</i>	<i>Chennai, Tamil Nadu</i> <i>Oct 2023 – Present</i>
Adhiparasakthi Polytechnic College <i>Diploma in Computer Engineering –</i>	<i>Chengalpattu, Tamil Nadu</i> <i>Jun 2020 – Apr 2023</i>
St. Joseph of Cluny Matric Hr. Sec. School <i>Class 10th –</i>	<i>Viluppuram, Tamil Nadu</i> <i>Jun 2019 – Mar 2020</i>

EXPERIENCE

Frontend Developer Intern <i>Solveza Pvt. Ltd.</i>	<i>Chennai, Tamil Nadu</i> <i>July 2025 – Sep 2025</i>
- Developed responsive UI components using React.js and Tailwind CSS across multiple application modules. - Implemented animations using Framer Motion to improve user interaction and interface experience. - Integrated REST APIs for dynamic data rendering and real-time content updates. - Optimized frontend performance, improving page load speed and responsiveness. - Collaborated in Agile development workflows using Git/GitHub and deployed applications via Netlify.	

TECHNICAL SKILLS

- Programming Languages:** C, Java
- Web Technologies:** HTML, CSS, JavaScript, ReactJS, Node.js
- Databases:** PostgreSQL, MongoDB, SQL
- Frameworks & Tools:** Bootstrap, Tailwind CSS, Material-UI, Git, GitHub
- Core Subjects:** Data Structures and Algorithms, OOPs, Database Management Systems

PROJECTS

Mobile App Review Analytics & Rating System 🔗	<i>Jan 2025 – May 2025</i>
- Developed a BERT-LSTM model for sentiment analysis on mobile app reviews. - Utilized Mistral LLM for automated feature extraction from user feedback. - Implemented clustering algorithms to generate actionable feature-level insights. - Designed a Bayesian-based rating system incorporating feature importance.	
Hospital Appointment Management System 🔗	<i>Feb 2025 – Apr 2025</i>
- Developed a full-stack admin dashboard for managing appointments, doctors, services, and user feedback. - Implemented real-time appointment scheduling, confirmation, and deletion using React and REST APIs. - Designed a responsive UI with React Bootstrap ensuring cross-platform compatibility. - Integrated client-side routing using React Router and API handling via Fetch API. - Built scalable backend services using Node.js and Express with secure RESTful APIs.	
DormNest: Student Accommodation Finder 🔗	<i>Oct 2024 – Dec 2024</i>
- Developed a desktop application using Java, Java Swing, JDBC, and PostgreSQL for student housing. - Implemented property search, filtering, and owner dashboard with real-time data updates. - Enabled secure user authentication, listing management, and student-owner communication. - Designed an intuitive UI with responsive layouts and optimized navigation.	

BEYOND ACADEMICS

Leadership, Problem-Solving, Video Games, Football, Movies, Volunteering, Music

LANGUAGES

Tamil, English
